The Report states that the alleged incident occurred at [REDACTED] lockup, located at 2452 W. Belmont Ave., Chicago, IL. VI. ANALYSIS

COPA recommends a finding of **Sustained** for **Allegation #1** against Sgt. [REDACTED] that Sgt. [REDACTED] unnecessarily kicked [REDACTED] about the head.

According to General Order GO 03-02-01, force is authorized when it is “objectively reasonable, necessary under the circumstances, and proportional to the threat, actions, and level of resistance offered by a subject. Members will continually assess the situation and determine: the authorized force option based on the totality of the circumstances; if the seriousness of the situation requires an immediate response or whether the member can employ other force options or the Force Mitigation Principles.”

The primary objective of the use of force is to ensure control of a subject with the reasonable force necessary based on the totality of the circumstances. Department members must escalate or de-escalate the amount of force, which is reasonably necessary to overcome the subject’s resistance and to gain control over the subject. General Order GO 03-02-01 also notes that Department members’ use of force is based on the totality of the circumstances known by the member at the time and from the perspective of a reasonable Department member on the scene, in the same or similar circumstances, without the benefit of 20/20 hindsight. GO 03-02-01 further notes that use of force situations can be tense, uncertain, and rapidly evolving. General Order 03-02 provides that Members must use de-escalation techniques such as the use of time and/or distance to prevent or reduce the need for force when it is safe and feasible to do so based on the totality of the circumstances.

GO 03-02-01 further characterizes a person “who is using or threatening the use of force against another person or himself/herself which is likely to cause physical injury” as an assailant. Assailants are subdivided into two categories. The first category is when the person’s “actions are aggressively offensive with or without weapons. This category of assailant may include a subject who is armed with a deadly weapon but whose actions do not constitute an imminent threat of death or great bodily harm.” Force options authorized on this type of assailant consist of direct mechanical technique such as punching or kicking. GO 03-02-01 defines direct mechanical techniques as being “forceful, concentrated striking movements, such as punching and kicking, or focused pressure strikes and pressures. These techniques can be combined with take-downs or pins against the ground or other objects.”

By all accounts, [REDACTED] actions placed him in the category of an assailant. This is verifiable by the video evidence which not only shows him struggling with officers including after he was placed in the cell. Specifically, [REDACTED] was still flailing his legs and kicking at the officers while on the ground. A direct mechanical strike is generally permitted against an assailant.

¹⁴ Attachment 23

However, Sgt. [REDACTED] kick to [REDACTED] head was objectively unreasonable based on the totality of the circumstances. Sgt. [REDACTED] stated that he unintentionally kicked [REDACTED] in the head and that he intended to kick [REDACTED] arms away from his legs. The evidence demonstrates that Sgt. [REDACTED] unnecessarily kicked [REDACTED] about the head.¹⁸ Specifically, at the time Sgt. [REDACTED] kicked [REDACTED] about the head, [REDACTED] was restrained in handcuffs, no longer attempting to bite the officers, and most importantly had already been placed fully inside the cell (i.e. the officers had accomplished their objective). A reasonable officer would have used time and distance to either remove himself from the cell thereby eliminating any threat posed by [REDACTED] or taken proper measures to ensure that his kick struck his intended target, [REDACTED] arms/torso. The video demonstrates that Sgt. [REDACTED] kicked [REDACTED] in an uncontrolled and careless fashion. Sgt. [REDACTED] kicked [REDACTED] at the top of his head, nowhere near Sgt. [REDACTED] intended target of [REDACTED] arms/torso even though [REDACTED] movements were minimal. [REDACTED] actions did not pose a serious, imminent threat of injury to Sgt. [REDACTED] at the time of the kick (i.e. Sgt. [REDACTED] had time to properly aim his kick). For these reasons, Sgt. [REDACTED] kick to [REDACTED] head was objectively unreasonable based on the totality of the circumstances.

VII. RECOMMENDED DISCIPLINE FOR SUSTAINED ALLEGATIONS

a. Sergeant [REDACTED]

i. Complimentary and Disciplinary History

Sergeant [REDACTED] has received 100 Honorable Mentions, (5) Complimentary Letters, (4) Department Commendations, (2) Attendance Recognition Awards, (1) Democratic National Convention Award, Presidential Election Deployment Award, (1) Emblem of Recognition for Physical Fitness, (1) 2004 Crime Reduction Ribbon, (1) NATO Summit Service Award, (1) Crime Reduction Award, (1) Unit Meritorious Performance Award.

Sergeant [REDACTED] has no disciplinary history.

ii. Recommended Penalty, by Allegation

Allegation No. 1

Sgt. [REDACTED] unnecessarily kicked [REDACTED] about the head in violation of Rule 2 and Rule 10. COPA recommends a **Written Reprimand**.

¹⁸ While there is no evidence that Sgt. [REDACTED] intentionally kicked [REDACTED] in his head that is only relevant to discipline and not to the finding of the propriety of the force used. COPA's disciplinary recommendation accounts for the fact that Sgt. [REDACTED] did not intend to kick [REDACTED] in his head.

VIII. CONCLUSION

Based on the analysis set forth above, COPA makes the following findings:

1. It is alleged that on July 11, 2018, at 2542 W. Belmont Ave., Chicago, IL 60618, Sgt. [REDACTED] unnecessarily kicked [REDACTED] [REDACTED] about the head.	[REDACTED]	Sustained/Written Reprimand
